

**TANK D'EMULSEUR SOUS PRESSION
ATMOSPHERIQUE**

POLYETHYLENE FOAM CONCENTRATE TANK

Mod. **SE-A-PE**

CARACTERÍSTICAS DE CONSTRUCCIONES

- Homopolymer polypropylène PPH, stabilisé aux UV
- Fini brillant beige clair
- Tête de fermeture et tube d'aspiration avec vis mâle 1" (selon la version)
- A utiliser pour du liquide de densité = < 1.4 kg/l.

OPTION

- Autres formes et accessoires, tels que niveaux, ouverture, vannes,...

NOTE

Les mesures et poids indiqués sont informatifs et peuvent évoluer selon le matériel servi.

CONSTRUCTION FEATURES

- Polyethylene PE100, UV stabilized.
- High resistance to chemicals.
- Closing Head and vacuum tube male thread 1". (depending on version)
- Suitable for liquid density = < 1.4 kg/l .

OPTIONAL

- Other shapes and accessories, such as levels, opening, valves...

NOTE

The measurements and weights indicated are informative and may change in the equipment served.

CAPACIDAD CAPACITY L	A mm.	DIAMETRO DIAMETER mm.	ESPESOR THICKNESS mm.	H mm.	PESO WEIGHT kg
